WRITING

Time: 60 minutes (20 points)

Comment on the following quotation.

A journey of a thousand miles begins with a single step.

Lao Tzu

Write 200–250 words.

Use the following plan:

- make an introduction, explaining how you understand the author's point of view;
- express your personal opinion and give reasons to support it;
- give examples from literature or history to illustrate your reasons;
- make a conclusion restating your position.

Lao Tzu said: „A journey of a thousand miles begins with the first step. It is impossible to disagree with this metaphorical statement filled with deep meaning. Lao Tzu draws attention to the great importance of the beginning of any accomplishment in human life. Any deed, which is done by a person, always begins with something. Everything has a beginning. To come to some result, it is necessary to start a certain activity. Any big accomplishment begins with a small one. Entering this or that road on the path of life, having chosen it among a large number of possible paths, a person takes the first step, thus determining his future path. It is important to start the road by taking the first step.

The problem of the beginning of the road that a person chooses, is raised in many works of fiction by domestic writers. In the novel-epic by Leo Tolstoy „War and Peace“ an important place is taken by the description of the life path of Andrei Bolkonsky. The author demonstrates both the ups and downs of this character, drawing attention to the fact that Prince Andrei makes numerous attempts to find himself and his purpose. First, Andrei Bolkonsky goes to war and in the personality of Napoleon, which he had previously set as an example, tries to find himself in the education of his son, left

without a mother, then - in public service, when Prince Andrei worked in the commission Speransky, then - in love with Natasha Rostova. Leo Tolstoy shows that after numerous attempts Andrei Bolkonsky still manages to find his purpose in the service of the first step he took as a representative of secular society. Realizing the emptiness and insignificance of the way of life that he had to lead because of his origin, Andrei Bolkonsky gives it up and goes to war. Although Prince Andrei Bolkonsky gives it up and goes to war, the decision to go to war is important to Andrei Bolkonsky's entire life journey because it becomes the first step in finding himself and his purpose.

The problem of the importance of the first step on a person's path is also reflected in M.A. Sholokhov's story "The Fate of Man". Revealing the image of the fact that his main value in life is his family, which helps him to feel happiness. The reader realizes what unbearable pain Andrei Sokolov feels when he learns about the death of his wife and two daughters, and then about the death of his son who participated in the war. However, the protagonist, despite the pain of loss, does not give up, but continues his life's journey, realizing that life is the most valuable thing a person has. A kind of "first step" to a new life becomes the fact that Andrei Sokolov begins to take care of the boy Vanyushka, who was orphaned by the war. In Vanyushka and in caring for him, the central character found a new meaning of life. And the finale of the story, which shows how Andrei Sokolov and Vanyushka leave the narrator and continue on their way, suggests that the protagonist has a lot more ahead of him.

Thus, a person's new path always begins with something, in order to change one's life, one must make the first step that will determine the further existence.

Have you ever wanted to achieve something great, but you didn't know where to start? Have you ever felt ~~over~~ ~~fed~~ overwhelmed by the task at hand? If so, you're not alone. Many people are paralyzed by fear of starting something new. But the truth is, you don't have to know everything before you start. You don't have to have all the answers. All you need is to take the first step.

The Chinese philosopher Lao Tzu once said, "The journey of a thousand miles begins with a single step." This means that no matter how big your goal is, you can achieve it if you just take the first step.
